REPORT OF SCHOOL NURSE
1962-1963

The annual health service offered the children in grades 1, 4 and 7 at the Chatham School consists of physical and dental examinations, also blood and urine tests. Vision and hearing tests and physical inspections done at school by the School Nurse include checking teeth, height, weight, posture, nutrition, health habits, hair and skin.

Patch testing is done for all pupils every three years, followed up with chest x-rays by the Tuberculosis Association for those who need x-rays.

It is our purpose to promote the best possible health in the minds and bodies of all our children. To that end, parents should check on all apparent conditions of the children before they leave for school. Cooperation from parents along this line will be of great assistance in providing full benefits from the educational facilities available for them.

I wish to thank the members of the School Board, the Superintendent and teacher and bus driver for their cooperation and assistance in the maintenance of a healthy school environment.

Respectfully submitted,

Julia T. Cox, R.N.
School Nurse

Report of Forest Fire Wardens

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention, however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience - a habit. Just plain carelessness with fires causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump - it's safer. A neglected back yard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.
4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.
